

Maine Moose: General Health Update

Anne Lichtenwalner DVM PhD
University of Maine, UMCE/SFA

Friday, October 7, 2016
3:15 pm, 107 Norman Smith

Anne Lichtenwalner earned her DVM at Oregon State University, and her PhD in reproductive physiology from the Department of Animal and Veterinary Sciences at University of Idaho in Moscow, Idaho. Her current areas of research include diseases of both livestock and wildlife, especially those with zoonotic potential. She is now the director and acting pathologist of the University of Maine Animal Health Laboratory, which is a member lab of the Northeast Wildlife Disease Cooperative. Since 2012, she has collaborated with the Maine IFW on moose studies.

All are welcome! Refreshments served at 3:00 PM

For information : Dr. Danielle Levesque, danielle.l.levesque@maine.edu, 1-2511
Sponsored by the School of Biology & Ecology as part of the 2015 Fall Seminar Series

If you are a person with a disability and need an accommodation to participate in this program, please call Trish Costello at 207-581-2540 to discuss your needs. Receiving requests for accommodations at least two days before the program provides a reasonable amount of time to meet the request, however all requests will be considered.

The University of Maine does not discriminate on the grounds of race, color, religion, sex, sexual orientation, including transgender status and gender expression, natural origin, citizenship status, age, disability, genetic information or veterans status in employment, education, and all other programs and activities. The following person has been designated to handle inquiries regarding nondiscrimination policies: Director, Office of Equal Opportunity, 101 North Stevens Hall, 207.581.1226.
